

WHO I AM

Brad Lyons

Title: Plumber
Hired: 2013

“Expect a good atmosphere with an upbeat group of people that make you forget you are at work.”

WHY FP&M

FP&M has so many different buildings and plumbing systems, I get the opportunity to learn something new every day. I also enjoy that I get to come to the same place every morning for work. At my old job, the jobsite changed often and could be 15 minutes away or it could be an hour and a half away.

FP&M TODAY

What I enjoy most about FP&M is my co-workers. Everyone is willing to help you with any questions you may have, and if you need a hand they are more than willing to help. It's nice to know that we are keeping campus up and running smoothly for the 36,000+ students on campus.
