

RECYCLING IN MY RESIDENCE HALL

*Excluding Frederiksen Court and SUV Apartments

STEP ONE

Check the bin signage and see if it's recyclable

Before tossing things in the trash be sure to ask yourself if it can be recycled. The stickers on the side of your blue bins show exactly what you can and can't include in single stream.

STEP TWO

Rinse out the container

If it ever contained food or drink, please empty and rinse it out before recycling. This ensures that there is no contamination of the single stream waste.

STEP THREE

Toss it in the blue bin

Every room has a blue bin as part of the equipment and furniture checklist. Please do not use plastic liners in the bins, the plastic is considered a contaminate and cannot be accepted as single stream. Paper bags may be used.

STEP FOUR

Dump the bin when it gets full

All residents are responsible for emptying their blue bins in the larger green dumpster with a yellow lid outside of their residence halls. If you did use a plastic bag for collection, be sure to separate it from your recyclables.

*Those at Frederiksen Court and SUV Apartments can empty their recyclables into the green dumpster with a yellow lid located outside. Be sure to remove plastic bin liners!
